### Product Description

For safe storage of the 18 miniatures and all the accessories of the Inferno expansion in the original game box. The smell of sulphur and iron fills your lungs, screams of misery fill the room and the heat steals your last strength - welcome to the eighth circle of hell! Powerful demons and the Prince of Hell himself await you in the Inferno expansion for "Black Rose Wars". But above all, you can expect even more wonderfully detailed miniatures. With this Feldherr foam set for your board game box, they are in good hands. - The set fits exactly into the original board game box of the "Black Rose Wars" expansion "Inferno" by Ludus Magnus Studio. - Offers space for all 18 miniatures and the complete game accessories of the expansion. - All cards also fit with protective sleeves. - The lid of the board game box protrudes approx. 5-6 cm. - For more stability during storage and transport. The Flex Cross Band size L, also included in the set, provides more stability during storage and transport. The set contains: - 1 foam insert for miniatures and cards (AFMFBD080BO) - 1 foam insert for miniatures, cards and tiles (AFMEMQ085BO) - 1 foam lid - 1 Flex Cross Band green - size L The 80 mm high insert provides Lucifer with a customised compartment. Thanks to the miniature precision cut, the figure remains securely in place during transport. The five Farfarello and the eight Arpias are also accommodated in precisely fitting compartments. This means that even the roughest transport cannot harm the delicate parts. If you paint your miniatures, you can be sure that the colours will be protected from scratches and abrasion. Further compartments are provided for game material. Two compartments provide space for the small cards (e.g. action cards), while a larger compartment holds the larger playing cards. Of course, all cards also fit with sleeves. The remaining compartments can be used for sorting game material, such as the damage/stability tokens. The second compartment holds the remaining figures - the three Centauro and the Barbariccia. A hexagonal compartment in the centre is intended for the hexagonal tiles. The reference cards are also placed here. Two card compartments provide space for the small cards. Use the remaining compartments to organise the rest of the game material, such as the Evocation and Infernal Activation Tokens. A matching foam cover provides final protection from above. The booklet and the Lucifer Sheet are placed on top of the cover. This ensures that all miniatures are safely packed, the game material is neatly stowed away and the contents of your box are optimally protected at all times. The foam inserts have the following dimensions: - AFMEMQ085BO: 285 mm x 285 mm x 85 mm total height (75 mm usable height + 10 mm foam base) - AFMFBD080BO: 285 mm x 285 mm x 80 mm total height (70 mm usable height + 10 mm foam base) - high-quality, fine-pored foam - Made in Germany - chlorine-free and acid-free
