Product Description

The large storage box FSLB310 filled with foam for stowing the evil armies from the GamesWorkshop starter set. The winged beasts from the shadows of Ash Mountain are among Sauron's most terrifying creations. With the Nazgûl Warlock on its back, the hybrid of dragon and serpent is a key weapon of the forces of Mordor. And when it rages outside the walls of Minas Tirith in the company of the Mordor Troll and Morannon Orcs, the downfall of Gondor seems all but sealed. GamesWorkshop has captured the splendour and terror of Sauron's forces in equal measure with these detailed miniatures. To spare you the horror of a broken wing and to make transporting your army easier, we have the matching storage box set. The set contains:- 1 Feldherr storage box FSLB310- 1 full-size foam inlay with 2 compartments for Winged Shadows (FSMEGJ140)- 1 full-size foam inlay as an intermediate piece (FSMEGL010)- 1 full-size foam inlay with 36 compartments for bases and miniatures (FSMEGK050BO)- 1 half-size foam inlay with 3 compartments for bases and miniatures (FSMEGK050BO) size foam insert with 3 compartments for large miniatures (HSDF085BO)- 2 half-size foam inserts with 16 compartments each for miniatures (HS040BF05BO)- 1 levelling mat (5 mm)- 2 foam covers

The Nazgûl mounts require a little more space. They are spread over 3 full-size inserts:- A mat with 2 compartments, cut to fit the main part of the miniature of the Witch King of Angmar on the Winged Shadow, as well as a second Winged Beast with rider. - An intermediate insert, provided with two circular cut-outs for the bases, which serves as a cover for the lower insert with the miniatures. - The third insert provides 2 round cut-outs for the bases. The third insert has 2 round compartments the size of the bases to ensure that the large figures stand securely and has 34 compartments for the miniatures of the Morannon Orcs. Storing the models in precisely fitting compartments protects sensitive parts, such as the wings of the Winged Shadows, from damage. It also prevents the figures from sliding around and bumping into each other during transport. It also prevents the colours from chipping or rubbing off, which could be very annoying, especially with the large, finely detailed miniatures of the hell vultures. The storage box set is also equipped with three half-size inserts, one of which has three large compartments and serves as a home for the Mordor troll. The other two compartments can be used for other large miniatures or to store the markers. To expand your collection, there are two inserts with a total of 32 compartments, suitable for orcs and most warrior models from the Middle-Earth tabletop strategy game. A matching foam lid completes the all-round supply of the armies of evil. Everything is safely stowed away and ready for transport to Minas Tirith at any time. The FSLB310 storage box is made of coated, double-walled cardboard and is therefore both very light and very sturdy. The attachable lid reliably protects the contents from dust and other external influences. The two plastic-reinforced carrying handles on the sides make it easy to transport the box. The 34 compartments of the FSMEGK050BO have the following dimensions:- 24 compartments: 50 mm long x 25 mm wide x 40 mm deep- 4 compartments: 50 mm long x 32 mm wide x 40 mm deep- 1 compartment: 59 mm long x 25 mm wide x 40 mm deep- 1 compartment: 74 mm long x 25 mm wide x 40 mm deep- 2 compartments, each with one rounded side: 58 mm long x 74 mm wide x 40 mm deep- 2 compartments, each with one rounded side: 56 mm long x 59 mm wide x 40 mm deep
