Product Description

The Feldherr Organiser offers space for the game material from two expansions. This way you can keep your collection organised. You have your hands full thwarting the plans of the ancient gods. There are many battles to fight and there seems to be a separate expansion for each scenario in "Eldritch Horror". How are you supposed to keep track of everything? This Feldherr organiser will keep your collection organised. Flexibly expandable, 2 expansions can be stored neatly sorted per organiser set. - One organiser set offers space for the entire game material of one large and one small expansion of the "Eldritch Horror" series. - The expansions can be freely combined with each other. - You can store the organiser in the board game box of the large expansion. - The set consists of three token holders and five card holders made of plastic. All trays can be removed individually. The three identical token holders can be stacked on top of each other. - Token holders and card holders are designed so that the game materials can be sorted according to your preferences. - All cards also fit with protective sleeves (max. outer dimensions standard: 95 mm x 68 mm and small cards: 67 mm x 44 mm). - You can store the game board and dictionaries separately in the box. - Transport and tilt-proof - Vertical storage possible - "Ready to Use" - No assembly required. Various expansions of different sizes have been released for "Eldritch Horror". The organiser offers space for one large and one small expansion. The organiser can be freely combined with all expansions and is stored in the board game box of the large expansion. Major expansions include: - Mountains of Madness- Dreamlands- Mask of Nyarlathotep- Beneath the Pyramids. Minor expansions include: - Forgotten Knowledge- Signs of Carcosa- Cities in Ruins- Strange Ruins. While the world descends into chaos, we'll keep your collection organised. No matter how many expansions you have, the organiser adapts to your circumstances and you can expand it as you wish. One large and one small extension per set can be neatly stowed away. This saves you time, as tedious pre-sorting before you start playing is a thing of the past. Thanks to the generic compartments in the trays, you decide how best to organise the markers and cards. For a quick start to the game, simply spread the trays out on the gaming table and you can get started with your friends. The set in detail: - The three token holders with 4 compartments are available for the small game material of the expansions. (e.g. markers for stamina and health, monster markers) - The four card holders, each with 7 compartments, provide space for the cards in standard format. (e.g. Mystery and Mythos cards). If you place two card holders next to each other, a recess is created at the top. Here you can place the investigator sheets and sheets of the Great Old Ones in a clearly visible position. - The card holder with 16 compartments offers space for the cards in American Mini format (e.g. artefact, support and condition cards). The foam cover supplied ensures that the game material does not slip out of the compartments. Place the game board and lexicon on the lid. - High-quality, fine-pored foam - Chlorine-free and acid-free - Made in Germany. As with all 3D-printed models, there may be minor imperfections. The product images are only examples of what the finished product may look like. Colours may vary. All products are supplied unpainted. - thermoplastic - no assembly required - ready to play - 3D printed in Germany
