from **50,20 EUR**

Item no.: 377643
 shipping weight: 1.50 kg
 Manufacturer: Feldherr

Product Description

Welcome to Yharnam. In the board game adaptation of the Playstation hit, you travel to the city to join the great hunt. Instead of the original board game box, this practical Feldherr storage box FSLB250 incl. foam inserts accompanies you on your adventure. All miniatures and the entire game material from the "Bloodborne: The Board Game" base game are always neatly stowed away and well protected. Many a danger lurks in Yharnam's dark alleyways. Angry mobs and mighty beasts jeopardise your life. Broken parts, nasty scratches and colour abrasion threaten your painted miniatures. To protect your miniatures, we have packed seven half-size foam inserts in the box. From the Cleric Beast to the various hunters and the angry mob, every model has a customised compartment. The customised cut prevents the figures from sliding around and bumping into each other during transport. This protects intricate details and your painted models are not affected by abrasion and scratches. So you only have to fear the monsters around the next street corner. Now that the figures are safely packed, let's move on to your game material. You will find compartments for your cards and tokens on a full-size insert and on some half-size inserts. The card compartments have finger-thick cut-outs that make it easier to remove the cards. Of course, all cards also fit into the card holders with protective sleeves. Finally, cover the inserts with the matching foam covers. This way, the miniatures are protected from all sides by the soft foam. Store the map tiles, hunter dashboards, double-sided trick weapon dashboards, large tarot cards, the hunt board and the rulebook between the two foam covers. The FSLB250 storage box is made of coated, double-walled cardboard and is therefore both very light and particularly sturdy. With the matching foam inserts, miniatures, game material and all other goods can be stored safely and protected from dust - and transported easily with the plastic carrying handle. One side of the box can be opened completely. This makes it easier to put away and remove the foam mats. The inlays are either inserted from the top or simply pushed into the side of the box. Your miniatures and game material are now neatly stowed away and safely stored. Now the hunt can begin.
