## FSLB250P19 - Storage box FSLB250 for Necrons

from **48,83 EUR**

Item no.: 377588  
shipping weight: 1.50 kg  
Manufacturer: Feldherr

### Product Description

You have slept for eons and your empire has crumbled. Rise up. Lead your dynasty to new glory and reclaim what was once yours. So that you can unleash the full might of the Necrons, this Feldherr storage box is packed full of individual foam inserts to safely store and transport more than 55 miniatures. Spread across a total of 7 half-size inserts, this storage box stores over 55 miniatures of your army. Precisely fitting compartments for each individual model ensure that the figures do not slide around or bump into each other during transport. This also protects the colours of the painted Necrons from abrasion and scratches. You need a fearsome leader on your raids, and of course he needs a suitable inlay to recover between battles. 14 compartments offer you space for up to 14 miniatures of your army. Illuminor Szeras and a retinue of Immortals, Flayed Ones and models with similar dimensions will find suitable compartments in the insert. The insert with the three large compartments is ideal for storing larger Necron miniatures. For example, you can safely store your Catacomb Command Barge/Annihilation Barge (without flying base) or Canoptek Wraiths here. Up to 5 Necron miniatures can be safely stored in this Feldherr half-size foam insert. The different sized compartments are ideal for storing larger miniatures such as a Canoptek Reanimator as well as standard models in an organised and well-protected manner. The half-size foam insert with 6 large compartments is ideal for storing and transporting medium-sized Necron models neatly and safely. The insert is particularly suitable for Destroyers or Tomb Blades, for example. Additional Tomb Blades and Destroyers can be safely stored in the insert with 12 compartments. You can also store Neuron Warriors or miniatures with similar dimensions here. The remaining two half-size trays, each with 10 compartments, have space for a total of 20 standard infantry miniatures from your army. They are particularly suitable for storing Necron warriors, deathmarks and models with similar dimensions. Finally, the supplied foam lid ensures that your figures are safely packed and survive transport to the gaming table undamaged. The FSLB250 storage box is made of coated, double-walled cardboard and is therefore very light and also particularly stable. With the matching foam inserts, miniatures, game material and all other goods can be stored safely and protected from dust - and easily transported with the plastic carrying handle. One side of the box can be opened completely. This makes it easier to put away and remove the foam mats. The inserts are either inserted from the top or simply pushed into the side of the box.

Details- high-quality, fine-pored foam - Made in Germany- chlorine-free and acid-free
