from **53,75 EUR**

Item no.: 377552
shipping weight: 1.00 kg
Manufacturer: Feldherr

Product Description

This box is another piece of jewellery. But is it too good to take with you on the bus or train? Then this Feldherr storage box for the base game is the perfect choice for you. The box has space for all 60 miniatures and all the game material from the "Warhammer Quest: The Cursed City" base game from GamesWorkshop. All cards also fit with protective sleeves. The booklets and the battle series are stored on the foam cover. The hero, enemy and object models from the basic box are distributed over two full-size and two half-size inserts. Whether it's the giant Vargskyr, the beefy Brutogg Corpse-Eater or the Bat Swarms and the small Gravestones - each model is given a suitable compartment (example images in the product description). The precision-fit compartments are ideal for storing the finely detailed figures and protect them from damage during transport. You no longer need to worry about your painted figures when travelling. They are neatly separated from each other in their compartments. This keeps the colours intact and free from scratches. Of course, you also get your own foam inserts for sorting the game material. The playing cards all fit in the inlays, even with protective sleeves. You can sort the playing cards, dice and markers in the inlay with 7 compartments, as well as in the foam inlay with 5 compartments. The latter also comes with 6 practical token holders, which make sorting easier and can also be used for playing. If you need even more space to sort the markers, you can use the free compartments on the full-size inlays. To store the larger cardboard pieces, such as the game board segments, and the small playing cards, use the full-size inlay with the large compartment and the three small compartments. The foam lids supplied ensure that everything is securely packed and well protected when travelling. Place the booklets and the battle series on top. The FSLB250 storage box is made of coated, double-walled cardboard and is therefore both very light and particularly sturdy. The practical carrying handle makes the box easy to transport. One side of the box can be opened completely. This makes it easier to put away and remove the foam inserts. This means that all models are safely stored, all game material is neatly stowed away and your game is optimally protected on the way to the next quest. As with all 3D-printed models, there may be minor imperfections. The product images are only examples of what the finished product may look like. All products are provided unpainted.

Details- high quality, made in Germany- chlorine-free and acid-free- thermoplastic- 3D printed in Germany
Contents- 1 Feldherr storage box FSLB250- 2 full-size foam inserts with 25 compartments each for miniatures (FSLQ040BO) foam inlays with 25 compartments each for miniatures (FSLQ040BO)- 1 half-size foam inlay with 10 compartments for miniatures (HSBE050BO)- 1 half-size foam inlay with 15 compartments for miniatures (HSMEDR065BO)- 1 half-size foam inlay with 7 compartments for cards and game material (HSMEQO050BO)- 1 half-size foam inlay with 5 compartments + 6 plastic token holders for cards and markers (HSMEYV060BO + 6 pieces 60256)- 1 full-size foam inlay with 1 large and 3 small compartments for game material (FS0501031BO)- 1 half-size foam mat, 4 mm, as height levelling- 1 foam lid
