### Product Description

As you brave the darkness, more and more miniatures gather, shrouding your home in shadows. To help you keep an overview despite the flood of miniatures and enjoy the fantastic models for a long time, we have the matching Feldherr storage box FSLB250 incl. foam for you. This allows you to effortlessly manage the contents of five "Massive Darkness 2: Hellscape" expansions. The contents of the "Demon Dragon Expansion" only partially fit into the storage box set. The large dragon figure must be transported separately due to its size. Two full-size, 5 half-size foam inserts and 2 plastic card holders ensure that the expansions are neatly and well protected. Each figure has its own compartment. No matter whether it's an insignificant Cultist Mob Minion or Beelzebub himself. You don't have to worry about scratches and chipped paint on your painted figures or broken details on your miniatures. You can also easily organise your game material such as board tiles, cards and tokens. The various playing cards are stored in special card compartments with finger-wide cut-outs. These make it easier for you to remove the cards. We have also included 2 plastic card holders for your small-format cards. These fit into two card slots for normal-sized cards. This keeps the small cards neatly organised and prevents them from sliding around. Of course, the cards also fit into the card compartments with protective sleeves. Board tiles and tokens are distributed across the remaining compartments. Depending on how you organise your tokens, there may be 15 compartments left for additional figures or tokens. Finally, secure the top of the inserts with the foam cover provided. Surrounded by protective foam, your figures cannot fall out or bump into the lid of the box. The FSLB250 storage box is made of coated, double-wall cardboard and is therefore both very light and particularly sturdy. With the matching foam inserts, miniatures, game material and all other goods can be stored safely and protected from dust - and transported easily with the plastic carrying handle. One side of the box can be opened completely. This makes it easier to put away and remove the foam mats. The inserts are either inserted from the top or simply pushed into the side of the box.
