### Product Description

To ensure that nothing happens to your figures on the way to the next street fight, you get the matching storage box FSLB250 including Feldherr foam inserts to protect your miniatures. Three full-size foam inserts with 8 compartments each are included to protect your miniatures. Whether Ryu, Blanka or Chun Li, each miniature in your collection has its own custom-fit compartment. This keeps your models safely in place during transport. The soft foam not only protects the delicate parts of your figures. The colours of the painted miniatures are just as safe from abrasion and scratches. The nubbed foam supplied is placed on the top insert and provides your figures with optimum protection. It ensures that the models are protected from all sides. This prevents them from falling out of the compartments during transport. The double-sided player boards and game material such as tokens and cards can be stored separately between the dimpled foam and the foam lid. The FSLB250 storage box is made of coated, double-walled cardboard and is therefore both very light and particularly stable. With the matching foam inserts, miniatures, game material and all other goods can be stored safely and protected from dust - and easily transported with the plastic carrying handle. One side of the box can be opened completely. This makes it easier to put away and remove the foam mats. The inserts are either inserted from the top or simply pushed into the side of the box.
