FSLB310P05 - Storage box FSLB310 for Death Guard

from **53,75 EUR**

Item no.: 377556
shipping weight: 0.60 kg
Manufacturer: Feldherr

Product Description

The sturdy storage box including foam for your Death Guard - space for up to 56 miniatures. Nurgle's favourite army enters the battlefields with slug-like artillery tanks, plague-ridden daemon engines, plague marines richly endowed by the Plague Lord, and their Primarch Mortarion towers above it all. To ensure that the chaos is limited to the enemies and that your miniatures are neatly and safely stored, we have created this filled storage box. The set consists of:- 1 Feldherr storage box FSLB310- 1 full-size foam insert for Mortarion + 1 Foetid Bloat-drones + 5 miniatures (FSMFAX120BO)- 1 full-size foam insert for 2 Plagueburst Crawlers + Myphitic Blight-hauler + 6 miniatures (FSMEFM090BO)- 2 full-size foam inserts for 25 miniatures each (FS050WH11)- 1 full-size foam cover A total of 4 full-size foam inserts are available to protect your miniatures. Customised compartments not only protect sensitive parts, they also prevent the models from sliding around and bumping into each other during transport. This protects the colours from abrasion, chipping and scratches. This can be particularly annoying with these models, which take a lot of time and effort to paint. The 120 mm high full-size foam insert provides optimum protection for the Death Lord with a compartment tailored precisely to Mortarion. The huge wings, the scythe and the Nurgling drones will remain undamaged in the future. The large compartment is suitable for both build variants of Mortarion, Daemon Primarch of Nurgle. Regardless of whether your model swings the scythe "Silence" left or right, the leader of the Death Guard fits into the insert with both poses. There is a compartment under the Daemon Primarch in which a Foetid Bloat-drone can be stored. 5 rectangular compartments can be filled with figures of your choice. They are particularly suitable for Deathshroud models, for example. The 5 rectangular compartments of the FSMFAX120BO have the following dimensions:- 3 compartments: 45 mm long x 77 mm wide x 110 mm deep- 1 compartment: 45 mm long x 81 mm wide x 110 mm deep- 1 compartment: 40 mm long x 52 mm wide x 110 mm deep The second insert has space for 2 Death Guard Plagueburst Crawlers. A Myphitic Blight-hauler can also sink its fanged mouth into the foam on this mat. An additional 6 compartments can be filled with Nurgle pendants of your choice. They are suitable for most Death Guard warrior models, such as the Deathshroud Bodyguards, Poxwalkers or Plague Marines. The 6 rectangular compartments of FSMEFM090BO have the following dimensions:- 4 compartments: 70 mm long x 52 mm wide x 80 mm deep- 1 compartment: 60 mm long x 52 mm wide x 80 mm deep- 1 compartment: 65 mm long x 52 mm wide x 80 mm deep And because an army like this can fight the battle with more than just war machines and HQ, we have also included 2 mats for your infantry in the box. The two full-size foam inserts offer space for a total of 50 standard Death Guard warrior models on a 32 mm base. - Each of the 50 compartments is 54 mm long x 41 mm wide x 40 mm deep. A foam lid rounds things off and ensures that the miniatures in the upper insert are protected all round and do not bump against the lid of the box on rough roads. Your Death Guard is thus safely packed and ready for the journey to the next battle in the name of Nurgle at any time. The FSLB310 storage box is made of coated, double-walled cardboard and is therefore very light and also very stable. The attachable lid reliably protects your miniatures from dust and other external influences. The two plastic-reinforced carrying handles on the sides make the box easy to transport. Dimensions of the storage box:- Internal dimensions: 350 mm x 285 mm x 310 mm- External dimensions: 380 mm x 310 mm x 320 mm- High-quality, fine-pored foam - Made in Germany- Chlorine-free and acid-free
