from **50,20 EUR**

Item no.: 377547  
shipping weight: 0.40 kg  
Manufacturer: Feldherr

### Product Description

The Paria Nexus, a vast sector that has eluded Imperial control. Until now, because the Indomitus Crusade is sending the brave Ultramarines into these unknown expanses. But old enemies are already waiting. Metallic warriors rise from their tombs. The whisper that their king has returned lures them. How will the clash between the Primaris and the ancient Necrons end? This storage box set will help you keep your miniatures safe and transport them to the next battle. So you'll be prepared for all eventualities. And don't lose your mind with the abundance of miniatures. The set offers space for all 61 miniatures from the "Warhammer 40,000: Indomitus" box. Generously sized, you still have room for additional miniatures or game material. Thanks to proven Feldherr expertise, you can organise all the miniatures in the Indomitus box neatly and transport them safely. The set contains a total of 8 foam inserts. Whether Excursor on a bike or deadly Skorpekh Lord, each of the 61 figures has its own customised compartment. This prevents your figures from sliding around and getting damaged. The soft, fine-pored foam also protects the colours of the painted models from abrasion and scratches. 3 half-size foam inserts serve as a safe retreat for your Imperial forces to get to the next battle unscathed. The insert with 7 compartments (HSMEYH055BO) offers space for your three Excursors. One of the elongated compartments can be filled with the Blade Guard standard bearer. This leaves you with two compartments for other models. The two inserts with 10 compartments each (HSLM050BO) provide the right space for every miniature for the remaining brothers in your squad, such as the Captain, Lieutenant, the Order Priests and the ten Storm Intercrossors. To ensure that your Xenos troops are always ready for the destruction of the Imperial Crusaders, we have of course also included the appropriate inserts to protect your Necrons. Four half-size inserts and 1 full-size insert ensure that the warriors of the Silent King are neatly and safely stowed away. The insert with 5 compartments (HSMEYG075BO) has a large compartment for the Kanoptech Reanimator. The Skorpekh Lord also has its own compartment here. There are 7 compartments for the Skorpekh Destroyers, the Skorpekh Lord, the High Lord and the King's Guardian, as well as for the Plasmant on the inserts (HSLZ060BO). The Kanoptech scarab swarms will also find a cosy tomb to romp around in. Cryptoknechts and Necron Warriors will find a safe haven in the 25 compartments of the full-size insert FSLQ050BO. Each of the 25 compartments is 54 mm long x 41 mm wide x 40 mm deep. We are - probably just like you - confident that your armies will continue to grow. The HSMEFF045BO has space for more standard infantry models. You have a total of 20 compartments to fill with more miniatures or game material. The half-size foam mat supplied serves as a height leveller. Finally, the foam lid ensures that everything is securely packed and well protected when travelling. The FSLB250 storage box is made of coated, double-walled cardboard and is therefore both very light and particularly sturdy. The practical carrying handle makes the box easy to transport. One side of the box can be opened completely. This makes it easier to put away and remove the foam inserts. **Caution!** Not suitable for children under 36 months.
