Product Description

What's worse than a giant on the battlefield? A spear-throwing giant that rains down spears as thick as tree trunks from afar. The Free People's alliance with the giants brings this spear-thrower onto the battlefield, a kind of living artillery. Its weapon is crude, but when the handle is as thick as a big man's torso, not much finesse is required. Its only weakness is close combat. Therefore, it must be well protected. The unit expansion A Song of Ice & Fire - Giant Spear Throwers brings two large miniatures to the popular world of the epic tabletop game. Included are two spear-throwing giants as well as two unit cards and two movement boards. A Song of Ice & Fire - Free People Starter Set is required to play this expansion.
