Product Description

For practical sorting and safe storage of the core set and other game materials from stretch goals We would like to introduce you to our full-size storage box for "Forbidden Fortress" from the "Shadows of Brimstone" series. The sturdy storage box is filled to the brim with matching foam inserts for all heroes, demons, monsters, cards, tokens, dice and many tiles from the core set. There is also space for some miniatures and game material from the expansions and stretch goals with 25 compartments for tokens, dice and small minis from expansions and stretch goals, as well as 3 compartments for (sleeved) cards from expansions and stretch goals. Of course, your game material is in good hands in our fine-pored foam. Delicate miniatures such as swords remain intact and the colour of painted figures does not get scratched. The inlays fit exactly into the sturdy storage box. This is made of coated, double-walled cardboard and is therefore both very light and very sturdy. The attachable lid reliably protects your models from dust and other external influences. With the two plastic-reinforced carrying handles on the sides, you can easily transport the box to the next battle. Two matching foam lids complete the set. One foam lid is used to level out the two stacks of inserts of different heights in the storage box. The second lid acts as a cover to ensure that nothing can fall out of the inserts.
