### Product Description

For safe and tidy storage of your Stormcast Eternals collection. As elite warriors of the God-King Sigmar, the Stormcast Eternals deserve special respect. When they are not in use, you should therefore treat them with particular care. Our sturdy storage box - filled to the brim with matching foam inserts for your wonderful miniatures - gives your Stormcast Eternals a new, safe and organised home in which they can feel completely at home. You can neatly store the larger miniatures of your Stormcast Eternals army in the foam insert with 6 compartments. The tray is ideal for storing riders on 90 mm x 52 mm oval bases, such as Vandus Hammerhand, the Concussors or the Evocators on Celestial Dracolines. Models with protruding details such as Evocators can be stored in the tray. Evocators can be safely stored in the insert with 16 compartments. The two inserts, each with 25 compartments, provide space for standard warriors on bases up to 40 mm tall. The grid foam insert is suitable for storing larger models. The insert is 60 mm high and pre-perforated with a 14 mm x 14 mm grid. To configure the insert according to your requirements, remove the corresponding foam segments and then glue them to the base. Models such as Ballista already have a new home. Of course, the inlays fit exactly into the sturdy storage box. This is made of coated, double-walled cardboard and is therefore both very light and very stable. The attachable lid reliably protects your models from dust and other external influences. With the two plastic-reinforced carrying handles on the sides, you can easily transport the box to the next game night. The matching foam lid completes the set. Place it on top of the top insert so that no model can fall out during transport.
