### Product Description

For the safe storage of a Wraithknight and many other Craftworld miniatures Wraithknight, Wraithlord, Jetbikes - Craftworlds is bursting with wonderful, detailed miniatures. To protect them properly, we recommend our storage box filled to the brim with matching foam. The insert for the Wraithknight is in two parts. The lower section has a compartment tailored precisely to the Wraithknight. This ensures optimum protection for the heavily armed battlefield statue - sensitive parts such as the phantom blaster and ghost glaive are reliably protected from damage. The colours of the painted figure also remain intact. The compartments next to them are used to store the units for quick attacks. 4 compartments are reserved for Aeldari warriors on jetbikes, such as Windriders or Skyrunners. A fifth, slightly larger compartment serves as a car park for a Vyper. All five vehicles, including the base, fit into the compartments. Once you have sorted your miniatures into the lower section, simply place the upper section, which has a precisely fitting cut-out for the towering parts of the Wraithknight, on top. The higher parts of the miniature are now protected all round and the vehicles are completely covered. Each of the 8 compartments is 122 mm long x 74 mm wide x 80 mm deep. Finally, the set includes an insert with 25 smaller compartments. This is suitable for the safe and organised storage of Craftworld standard warriors (e.g. Black Guardians) on up to 40 mm bases. Each of the 25 compartments is 54 mm long x 41 mm wide x 40 mm deep. Naturally, the inserts fit exactly into the sturdy storage box. This is made of coated, double-walled cardboard and is therefore both very light and very stable. The attachable lid reliably protects your models from dust and other external influences. With the two plastic-reinforced carrying handles on the sides, you can easily transport the box to the next battle. The set is completed with a matching foam lid. Place this on the top insert so that nothing can fall out or bump into the cardboard lid.
