### Product Description

For storing the warrior models without game material - space for more than 90 miniatures, plus customised inserts for Arcane Perils and Mollog's Mob This foam-filled storage box is also a neat solution for those who want to store their warrior miniatures separately from the game material. The box comes with six foam inserts in which you can sort the figures from 15 warbands. Because Mollog is once again out of line, he and his mob get their own customised insert. As a bonus, the pack also includes the insert for the Arcane Dangers. From Averon Stormfather and Sanson Farrunner to Zarbag's scurrying goblin flock, every figure has its own compartment here. The models are well protected in soft foam. Delicate details are thus safe from damage. Precisely fitting compartments ensure that the figures do not slide around when travelling. Painted warrior models are spared scratches and chipped paint. The insert for Mollog's Mob is divided into 9 compartments. One large and three small compartments are precisely tailored to the miniatures of Mollog and his trio of appendages - Bat Squig, Spiteshroom and Stalagsquig. Finally, the studded foam insert and the foam lid ensure that your figures are securely packed all round and survive transport to the Mirrored City undamaged. The FSLB310 storage box is made of coated, double-wall cardboard and is therefore very light and also very sturdy. The attachable lid reliably protects your miniatures from dust and other external influences. The two plastic-reinforced carrying handles on the sides make it easy to transport the box.
