Product Description

Colourful patches, a collection of buttons, an anniversary and lots of fun - welcome to Patchwork. Patchwork, probably Uwe Rosenberg's most popular game for 2, can be found on many game shelves around the world. Numerous seasonal and different editions have been published in recent years. To celebrate its 10th anniversary, Lookout is now bringing out a graphically completely revised version of the original edition. A modern colour concept and enchanting new patterns give the popular puzzle classic for 2 a new look for the anniversary and present the whole thing in a special anniversary box. The tried-and-tested game principle and the number of pieces remain unchanged. The long out-of-print Automa deck for solo players is included as a birthday present. A great game version for fans, collectors and newcomers.
