Product Description

With precise attacks that only imperial stormtroopers are capable of, you will have wiped out the rebel scum in no time. We support you with this Feldherr storage box, which we have added to our range especially for the Empire. The HSFW045BO half-size foam insert has one compartment each for small and large cards. You can organise markers, dice and turn counters in three round and five rectangular compartments. You can fill the individual compartments up to a usable height of 35 mm. This not only gives you a quick and good overview of your gaming accessories, but also ensures that everything is always safely ready for transport to the next game. The HS065A003 half-size inlay provides safe storage for up to 15 Star Wars: Legion miniatures. It also offers 8 compartments for standard infantry (e.g. stormtroopers), 4 compartments for medium-sized miniatures (e.g. droidekas), 2 compartments for large figures and one in the centre for dice and markers. The separate storage of the figures ensures that intricate details such as blasters and swords are protected from damage. It also prevents the figures from sliding around and bumping into each other during transport. This keeps your painted miniatures safe from abrasion and annoying scratches. The two large compartments of the HS060LG05 half-size foam inlay are precisely cut to fit 2 E-Web Heavy Blaster teams. In addition, the small compartments offer space for up to 16 lightly armed troopers. The large compartment of the half-size insert HS085A003 is precisely tailored to fit a model of the TX-225 including base. The three small compartments can be used to store the boxes with the kyber crystals separately from the armour. The half-size foam insert HS085A004 can be used to store up to 14 Star Wars: Legion miniatures neatly and safely. The two large compartments are ideal for the Taurback Riders and other similarly sized figures. The remaining 12 compartments can be filled with infantry models or used to store accessories (e.g. markers and dice). The HSMECA075BO half-size insert ensures that four 74-Z fast jet sleds can be safely parked. In addition to the four slots for the sledges, you also have space for a further eight soldiers in your army. The HSMEBY110BO foam insert provides compartments for an AT-ST and an infantry unit. The FSMEDS040BO full-size insert allows you to store the core of your army. There is space for up to 32 standard infantry models. This allows you to put an end to the rebellion. The FSLB310 storage box is made of coated, double-walled cardboard and is therefore very light yet sturdy. The attachable lid reliably protects the contents from dust and other external influences. The two plastic-reinforced carrying handles on the sides make the box easy to transport.
