Product Description

Servants of Tzeentch are among the most powerful mages in the mortal realms. All serve eternal change and sorcery. However, this foam-filled storage box is no witchcraft, thanks to which your army will arrive at battle complete and intact, ready to give your opponents a good thrashing. 2 full-size and 7 half-size foam inserts serve as shelter for your forces before they are called into battle. If the god of change has many different servants, Feldherr naturally also offers many different foam inserts. Suitable for keeping every chaotic person safely under lock and key. Compartments of different sizes ensure that all your figures have their place. The soft foam reliably protects against breakage, snapped-off parts and other frustrating damage. And the colours of painted miniatures are spared scratches, abrasion and chipping details. The FSMEUS140BO foam insert - specially developed for the "Lord of Change" - offers your model reliable protection with its precisely cut compartment. The model fits into the compartment in both build variants - "Lord of Change" or "Kairos Fateweaver". Up to 10 additional miniatures can be stored in the rectangular compartments, such as Kairic Acolytes or Tzaangors. Up to 10 Tzeentch followers (e.g. Kairic Acolytes or Tzaangors) can be stored in the compartment. The two half-size inserts HSLM050BO offer space for up to 10 Tzeentch followers (e.g. Kairic Acolytes). Tzaangors also feel right at home here. The conically shaped compartments of the half-size insert HS035C5BO offer enough space to safely transport up to 20 Brimstone Horrors. For Blue Horrors, we have packed the half-size insert HS035BF05BO. With its larger compartments, the insert offers a secure hold to lock away up to 16 models. The two half-size inserts HSMEFF045BO will put a smile on your face. Each insert can hold up to 10 Pink Horrors. Alternatively, Blue Horrors, Tzangoors or Kairic Acolytes can also be stored here. The full-size insert FSMEFP040BO can hold up to 16 more Pink Horrors and similarly sized miniatures. The supplied foam lid closes the box and ensures that the miniatures in the upper insert are also protected from all sides. The FSLB310 storage box is made of coated, double-wall cardboard and is therefore very light yet stable. The attachable lid reliably protects the contents from dust and other external influences. The two plastic-reinforced carrying handles on the sides make the box easy to transport.
