from **82,29 EUR**

Item no.: 377550
shipping weight: 1.50 kg
Manufacturer: Feldherr

Product Description

After the basic game box for Blackstone Fortress was already packed to the brim with miniatures and plenty of game material, the expansions bring even more wonderful models to the gaming table. To prevent your collection from becoming a labyrinth and the miniatures from getting lost in the confusion, you get the matching Feldherr storage box for storing and transporting the 11 expansions for "Warhammer Quest: Blackstone Fortress". To ensure that your Blackstone Fortress collection arrives at the gaming table complete and undamaged, the box is filled with two full-size and eight half-size foam inserts, customised for your collection. Not only does each model have its own, miniature-specific compartment. There is also a separate foam insert for each extension. Because chaos and crowds are already enough of a problem for you in the Black Fortress. Thanks to the precise cut of the individual compartments and the high-quality, soft foam, the delicate details of your models are optimally protected against breakage. The colours of the painted figures are also protected from scratches and abrasion during transport. Your cards, markers, segments and all other accessories are of course just as well protected. So you won't lose track of them or your dice. This saves time and nerves when setting up the game and you can devote yourself fully to your quests. The card and token holders made of robust plastic offer you more organisation and clarity. To store the larger game components, such as the playing fields, floor segments and quest envelopes from the "Escalation" and "Ascension" expansions, you also get a full-size insert with one large and three smaller compartments. The supplied dimpled foam lid closes the box and ensures that the miniatures in the upper insert are also prepared for the next game. The FSLB310 storage box is made of coated, double-wall cardboard and is therefore very light yet sturdy. The attachable lid reliably protects the contents from dust and other external influences. The two plastic-reinforced carrying handles on the sides make the box easy to transport. As with all 3D-printed models, minor imperfections may occur. The product images are only examples of what the finished product may look like. Colours may vary. All products are supplied unpainted.
