Product Description

There is only one rule in Astra Militarum: If you shirk, you get shot. This Feldherr storage box ensures that none of your miniatures can desert. It allows you to transport your Astra Militarum army safely and neatly to the next battle. Four full-size and two half-size foam inserts ensure that your basic soldiers and your tanks are stored safely and neatly. Precisely dimensioned compartments for each miniature prevent the figures from sliding around or bumping into each other during transport. This ensures that the weapons and equipment remain on the model. The soft foam also protects the colours of your painted figures from abrasion and scratches. You can safely store up to two heavy tanks, divided into hull and turret, in each full-size insert. And because the Astra Militarum focuses on mass, the inlay is available twice in a set. This means you can take up to four tanks into battle and give the enemy a real run for their money. Two compartments are tailored to the hull parts. There is enough space for side cupolas equipped with different weapons as well as attachments at the front, such as laser cannon and bolter. There are three compartments in total for the turrets with guns and crew. With a length of 170 mm, two compartments are large enough for most battle guns. You can use the third compartment for a third superstructure or other parts and miniatures. The inserts are suitable for heavy armour such as Leman Russ or Chimera. The Leman Russ fits in all build variants. The rectangular compartment is 118 mm long x 56 mm wide x 70 mm deep. You will find plenty of space for your infantry in the insert with 34 compartments. From commandos to simple guardsmen, 34 loyal soldiers of the Empire fit in the tray. It doesn't always have to be a tank for a lot of firepower. Up to 6 Heavy Weapon Squad miniatures can be safely accommodated in each of the two half-size foam inserts. The teams fit exactly into the individual compartments. Big, strong and dumb, the Abhumans are ideal for the front line. You can store Bullgryns, Ogryns or Nork Deddog particularly well in the full-size foam insert with 16 equally sized compartments. The included foam lid closes the box and ensures that your miniatures are well protected all round. The FSLB310 storage box is made of coated, double-walled cardboard and is therefore very light yet stable. The attachable lid reliably protects the contents from dust and other external influences. The two plastic-reinforced carrying handles on the sides make the box easy to transport.
