### Product Description

Pack your bags, it's time for a city trip together to one of the world's most fascinating metropolises! Whether you're heading to London, New York, Paris or Tokyo - there's one problem: you only understand a few words in the local language and need some directions ...In the co-operative party game Word Traveler, you go on a city trip together to one of four available world metropolises. You all have your own city map with sights that you really want to visit. But to reach them, you need the help of the others at the table. You take it in turns to play the travellers and the locals and all work together to take in as many sights as possible and collect golden souvenirs. But there's a catch! Similar to communicating in an unfamiliar foreign language, you only have a few words at your disposal to ask for directions. Bon voyage!- Players: For 2 - 5 players aged 10+- Playing time: 30+ minutes
