Product Description

When kings run out of arguments, they send soldiers. And so armies of mercenaries clash in the bloody round of battle in "Conquest: The Last Argument of Kings". The Core Box (2 Player Starter) from Para Bellum is bursting with fantastic miniatures in an extraordinary scale. The matching Feldherr storage box FSLB310 for your 69 miniatures ensures that no delicate parts break off or details are scratched during transport. Filled to the brim with Feldherr foam inserts, you can lead the two included armies safely and neatly into battle. There is still room to expand your armies. We have packed 3 full-size and 4 half-size foam inserts in the storage box to protect your 69 miniatures. Whether it's a Mounted Noble Lord or a hideous Abomination, each miniature has its own compartment. Thanks to the precise cut, the miniatures have a firm fit. Even if transport is a little bumpy, the figures stay in place. The soft, fine-pored foam protects intricate details from breaking off and the colours of your painted models from scratches and paint abrasion. To allow your armies to grow, up to 20 more miniatures can be stored in the box. The supplied foam lid seals the box and ensures that the models are optimally protected from all sides. The large base of the Abomination is stored on the foam lid. The FSLB310 storage box is made of coated, double-walled cardboard and is therefore very light yet stable. The attachable lid reliably protects the contents from dust and other external influences. The two plastic-reinforced carrying handles on the sides make the box easy to transport. This ensures that all miniatures are safely and neatly stowed away and ready for transport to the next battle.
