### Product Description

Led into battle by their god Teclis, the Lumineth Realm Lords illuminate even the darkest corners of the mortal realms. The Lumineth Realm Lords are constantly on the move, as can be seen from their dynamic poses, flowing cloaks and fluttering banners. In addition, ornate, playful decorations and gemstones adorn the armour of the aelves. To ensure that this beautiful force is not disfigured by scratches or chipped parts on the way to the next battle, you get the matching storage box FSLB310 including Feldherr foam inserts to protect your miniatures. Each miniature in your collection has its own custom-fit compartment. The endless spells even get miniature-specific compartments. This keeps your models safely in place during transport. The soft foam not only protects the delicate parts of your figures. The colours of painted miniatures are just as safe from abrasion and scratches. The matching foam lid made of sturdy nubbed foam completes the set. Use this as a cover so that nothing can fall out during transport and the miniatures in the top insert are also optimally protected. The FSLB310 storage box is made of coated, double-walled cardboard and is therefore very light yet stable. The attachable lid reliably protects the contents from dust and other external influences. The two plastic-reinforced carrying handles on the sides make the box easy to transport. This ensures that all miniatures are safely and neatly stowed away and ready for transport to the next battle.
