### Product Description

Most hobbyists know the problem: The miniatures are getting more, but the space is getting less. This is of course also the case with Warhammer Underworlds. With this foam-filled Feldherr storage box FSLB310, you can store your models separately from the game material and thus save space without having to forego reasonable protection. From Averon Stormfather to Morgok's Brechaz to Zarbag's scurrying goblin flock, every figure will find a suitable compartment here. The models are well protected in soft foam. Sensitive details are thus safe from damage. Precisely fitting compartments ensure that the figures do not slip around when travelling. Painted warrior models are protected from scratches and chipped paint. The set is intended exclusively for storing the miniatures. Game accessories such as cards, markers and game boards must be stored separately. Finally, the foam lid ensures that your figures are securely packed all round and survive transport to the gaming table undamaged. The FSLB310 storage box is made of coated, double-walled cardboard and is therefore very light yet sturdy. The attachable lid reliably protects the contents from dust and other external influences. The two plastic-reinforced carrying handles on the sides make the box easy to transport. This ensures that all miniatures are safely and neatly stowed away and ready for transport to the next battle.
