Product Description

They may be the youngest race in the Warhammer 40,000 universe, but they should not be underestimated, because advanced equipment, dynamism and a good dose of optimism have already convinced many opponents of the Tau'va. To ensure that the greater good reaches all corners of the galaxy, this foam-filled Feldherr storage box ensures that your Tau army arrives safely at the gaming table. A half-size insert is tailor-made for a model of the Hammerhead Gunship. The MV1 Gun Drones and the vector thrusters remain intact during transport, as does the powerful ion cannon. Embedded in high-quality, soft foam, the colours and decals of the painted miniature are also safe from abrasion and scratches. The insert is designed for both build variants - the TX7 Hammerhead Gunship and the TX78 Sky Ray Gunship. The TY7 Devilfish also fits. One of the two rectangular compartments serves as storage for the base. The second can be used for another unit (e.g. X85 Enforcer). The other two half-size inserts, each with 16 compartments, offer you enough space for the smaller infantry units. Up to 25 standard units the size of the XV25 Stealth Battlesuit find a safe place on one of the full-size inserts. Up to 8 larger and more expensive Xenos models can be stowed on the second full-size mat. The insert is therefore ideal for protecting Tau Empire Commander models (X85 Enforcer and X86 Coldstar Battlesuit with flying base) and for XV88 Broadside Battlesuit, for example. Even larger miniatures are optimally protected on the last full-size insert. This is ideal for the XV88 Broadside Battlesuit and similarly sized figures, for example. The supplied foam lid seals the box and ensures that the miniatures in the upper tray are also prepared for the next battle. The FSLB310 storage box is made of coated, double-wall cardboard and is therefore very light yet stable. The attachable lid reliably protects the contents from dust and other external influences. The two plastic-reinforced carrying handles on the sides make the box easy to transport.
