from **53,75 EUR**

Item no.: 377617  
shipping weight: 0.70 kg  
Manufacturer: Feldherr

### Product Description

If you would like to store your collectible figures without boxes, then we have a solution for that too: the large Feldherr full-size storage box with matching Feldherr foam inserts to protect your Funko POP! figures. The set contains four full-size inserts in two different sizes. One is divided into eight compartments, the other into six compartments. The latter is designed for Funko POP! vinyl figures that deviate slightly from the standard size due to their protruding details. One Funko POP! figure fits into each compartment. The figures are stored horizontally. The figures are therefore always visible and you can also display your Pops in the insert. The soft foam protects your figures from scratches and other damage. This means you can not only store them well protected, but also transport them safely. The package is rounded off with the matching foam lid. This ensures that the figures in the top insert are also protected from above. The FSLB310 storage box is made of coated, double-wall cardboard and is therefore very light and also very sturdy. The attachable lid reliably protects the contents from dust and other external influences. With the matching foam insert, miniatures, game material and all other goods can be stored safely - and transported easily with the two plastic-reinforced carrying handles on the sides.
