Product Description

Whether your Slaves to Darkness are in the service of Khome, Slaanesh, Nurgle or Tzeentch, or whether they spread chaos in the name of all the gods, it makes no difference to us. With this foam-filled Feldherr storage box bag, your army will arrive at the gaming table fully equipped and ready for battle. Two full-size and six half-size foam inserts take care of the well-being of your warriors and creatures. The selection of suitable compartments for your units is as varied as the Chaos Gods themselves. The custom-fit compartments ensure that the figures remain securely in place during transport. The soft foam provides reliable protection against breakage, snapped parts and other frustrating damage. And the colours of painted miniatures are spared scratches, abrasion and chipping details. The two half-size inserts HSLM050BO provide a safe haven for up to 10 Chaos Warriors. The differently sized compartments are particularly suitable for accommodating slightly wider standard Slaves to Darkness infantry. Chaos Warriors and Chaos Chosen feel particularly at home here. The HSMEFF045BO (standard bearers and taller warrior models also fit here) and the HS045I012BO are also suitable for standard infantry. Of course, more expansive miniatures also get the space they deserve in the box. A total of 15 compartments in 4 different sizes on the HSMEDR075BO provide protection for your warriors and monsters. The two large compartments on the insert are ideal for storing the Ogroid Myrmidon, Fomoroid Crusher and similarly sized models. You can store infantry warriors in the other compartments. The large compartment in the centre of the HSMEME070BO insert is ideal for storing miniatures the size of the Mindstealer Sphirax. You can store warriors with extensive details or even Raptorix in the other compartments. Even larger miniatures are well protected on the two full-size inserts. These are ideal for the Chaos Lord on Karkadrak, the Chaos Knights and Varanguard, for example. The foam lid supplied seals the box and ensures that the miniatures in the top tray are also prepared for the next battle. The FSLB310 storage box is made of coated, double-walled cardboard and is therefore very light yet sturdy. The attachable lid reliably protects the contents from dust and other external influences. The two plastic-reinforced carrying handles on the sides make the box easy to transport.
