### Product Description

Here in the skies, the inventive duardin are in their element. But even up here in the sky cities of Chamon they are not safe from pesky enemies, who this time turn up in the form of the Disciples of Tzeentch and want to steal their precious Aethergold. At least when it comes to packing your models, technology wins out over magic, because with this Feldherr storage box including foam, both armies are safely stored. With the 120 mm high half-size insert, specially designed for the Grundstok Gunhauler, you can ensure that your ship is always ready for take-off. A compartment tailored precisely to the miniature ensures optimum protection for this detailed model. This not only protects the sensitive parts, such as the flight base or weapons, from damage. The colours of the painted miniature also remain intact. In addition to the large compartment, you also have 4 rectangular compartments in which you can store further units of the Kharadron Overlords. Your skyriggers are in good hands here. The Endrinmaster and the remaining skyriggers of the Kharadron Overlords are stored on the HSCW075BO. Here, too, custom-fit compartments made of fine-pored, soft foam provide optimum protection for your figures. The remaining compartments offer space for additional infantry models. The other two half-size inserts with 12 compartments are reserved for the Magister on Disc of Tzeentch, as well as the Tzaangor Skyfires and Screammers of Tzeentch. Here, too, there is still room for smaller infantry units, such as the Horrors of Tzeentch or Tzaangors. The 12 compartments on the full-size insert FSMEY070BO can also be used to store the Magister on Disc of Tzeentch and the Tzaangor Skyfires. As your armies are sure to grow, you will also receive a full-size insert for up to 25 miniatures and the HSMEFF045BO for 10 miniatures. There is also space for infantry from both factions, such as Arkanaut Company, Grundstok Thunderers or Horrors of Tzeentch. The foam lid supplied seals the box and ensures that the miniatures in the top tray are also prepared for the next battle. The FSLB310 storage box is made of coated, double-wall cardboard and is therefore very light yet sturdy. The attachable lid reliably protects the contents from dust and other external influences. The two plastic-reinforced carrying handles on the sides make the box easy to transport.
