Product Description

Although they are among the most evil forces in the realms, the Dark Prince's armies are extremely vulnerable. Especially unusual models such as Exalted Seeker Chariot or Contorted Epitome should therefore be handled with particular care and stored sensibly. With the Feldherr storage box FSLB310 and the matching foam inserts for Hedonite Slaanesh, you can do this with ease. Of course, the fine-pored foam reliably protects your miniatures from damage - fragile parts remain undamaged, sensitive surfaces are spared scratches and abrasion. The FSMEOL100BO insert has a customised compartment for an Exalted Seeker Chariot model. Three further compartments are suitable for miniatures such as Fiends or Huntresses of Slaanesh. You can safely store smaller miniatures such as Masque in the two small compartments. There is a customised compartment on the HSMEOF095BO insert for a model of the Syll'Esske: The Vengeful Allegiance and a Contorted Epitome. The four other compartments of the inlay are suitable for many character models such as the Masque or Daemonettes. Large miniatures such as Huntresses of Slaanesh can be safely stored in the inlay with 8 compartments. You can store miniatures of various sizes, such as Daemonettes of Slaanesh, in the inlay with 34 compartments. The HSMEFF045BO tray is suitable for other simple miniatures of various sizes. Finally, the set includes a tray with 12 compartments of the same size for storing small miniatures. The FSLB310 storage box is made of coated, double-walled cardboard and is therefore very light and also very sturdy. The attachable lid reliably protects your models from dust and other external influences. With the two plastic-reinforced carrying handles on the sides, you can easily transport the box to the next game night. The matching foam lid completes the set. You place this on the top insert - so no model can fall out during transport.
