from **53,75 EUR**

Item no.: 377539
shipping weight: 1.50 kg
Manufacturer: Feldherr

Product Description

In the Feldherr storage box FSLB310 for Chaos Space Marines, your miniatures can recover from the last battle and you can keep track of your troops. Of course, the fine-pored Feldherr foam reliably protects your models from damage - delicate parts and sharp edges remain undamaged, painted models are spared scratches and abrasion. The foam insert for Noctilith Crown has three compartments. The large compartment is customised for the unusual model. The two other compartments of the insert are suitable for Havocs, Obliterators or character models. The foam insert for the two Land Raiders is divided into six compartments. The two large compartments are tailored exactly to one Land Raider each. The four other compartments have the following dimensions: Finally, the set contains two inserts, each with 12 compartments of different sizes. Two large compartments are ideal for large miniatures, such as the Black Legion commander Abaddon the Despoiler. The two medium-sized compartments can be filled with obliterators, among other things. The standard warriors of your Heretic Astartes Legion fit into each of the eight small compartments. The FSLB310 storage box is made of coated, double-walled cardboard, making it both very light and very sturdy. The attachable lid reliably protects your models from dust and other external influences. With the two plastic-reinforced carrying handles on the sides, you can easily transport the box to the next game night. The matching foam lid completes the set. You place this on the top insert - so no model can fall out during transport.

Details- high quality, fine-pored foam- chlorine-free and acid-free- Made in Germany
