from **66,60 EUR**

Item no.: 377541
shipping weight: 1.50 kg
Manufacturer: Feldherr

Product Description

The Feldherr storage box FSLB310 for Star Wars Legion - Rebels is filled to the brim with suitable foam for your exclusive collection. The fine-pored Feldherr foam offers your models reliable protection against damage - fragile parts remain intact, sensitive surfaces are spared scratches and abrasion.

HS110LG04: The insert offers space for two Star Wars: Legion T-47 air gliders. The insert has been specially cut so that the bases can be placed under the gliders.

HSMEME070BO: The insert has seven compartments. One large, customised compartment accommodates the land glider model including the base. The other compartments - four large and two small - provide space for other miniatures. They are also ideal for storing accessories such as tokens and dice.

HSMEIM080BO: The two large, round compartments of the insert are cut to fit 2 laser gun team miniatures. In addition, the insert with the small compartments offers you space for 4 standard troopers and 5 rebels with heavy armament.

HSMEBZ080BO: Foam insert for two AT-RT and 12 rebels. The specially moulded AT-RT compartments allow the vehicles to be transported safely. A further 12 compartments round off the mat - 8 compartments for standard rebels, 4 compartments for rebels with heavy weapons.

HSMEDO065BO: The insert has 15 compartments. The two large, precisely fitting compartments hold the two Tauntaun riders. The three medium-sized compartments can be filled with Type II medium-weight blaster troopers. Up to ten rebel veteran troopers can be accommodated in the remaining compartments.

HSCS060BO has 24 compartments for simple miniatures.

HSFW045BO: This insert has 10 compartments for accessories. There is one compartment each for small cards and one for large cards. You can organise markers, dice and turn counters clearly in three round and five rectangular compartments.

FSMEDS045BO: Here you can safely store 32 more simple miniatures. The FSLB310 storage box is made of coated, double-wall cardboard and is therefore very light and also very sturdy. The attachable lid reliably protects your models from dust and other external influences. With the two plastic-reinforced carrying handles on the sides, you can easily transport the box to the next game night. The matching foam lid completes the set. Place it on the top insert - so everything is safely packed in foam.
