from **52,33 EUR**

Item no.: 377477
shipping weight: 1.50 kg
Manufacturer: Feldherr

Product Description

The Feldherr storage box FSLB310 for Star Wars Legion - Empire is filled to the brim with suitable foam for your exclusive collection. The fine-pored Feldherr foam offers your models reliable protection against damage - fragile parts remain intact, sensitive surfaces are spared scratches and abrasion. HSMECA075BO: The customised half-size foam insert ensures that four 74-Z jet sleds can be safely stowed away. In addition to the four slots for the sledges, you also have space for a further eight soldiers from your army. HSMENI085BO: Half-size insert with four compartments. The large compartment is tailored to a TX-225 model including base. In the three small compartments you can store the boxes with the cyber crystals separately from the armour. HSCS060BO: This half-size insert has 24 equally sized compartments for the safe storage of stormtroopers. Also suitable for soldiers with blasters or flamethrowers. HSFW045BO: The half-size foam tray has one compartment for small cards and one for large cards. You can organise markers, dice and turn counters in three round and five rectangular compartments. 2x HSMEBY110BO: Two half-size inserts for two AT-STs. The inserts are perfectly tailored to the dimensions of the all-terrain scout transporter. This means it can be stowed safely lying down and transported to the next battlefield. The inserts also each have a small, round compartment in which you can store a miniature of General Veer. FS0551048: This full-size insert provides a safe place for up to 48 standard troopers. Character figures up to a height of 45 mm can also be stored upright here. The FSLB310 storage box is made of coated, double-walled cardboard and is therefore both very light and very sturdy. The attachable lid reliably protects your models from dust and other external influences. With the two plastic-reinforced carrying handles on the sides, you can easily transport the box to the next game night. The matching foam lid completes the set. Place it on the top insert - so everything is safely packed in foam.
