Product Description

This storage box FSLB310, filled with the matching Feldherr foam inserts, offers space for all 40 miniatures from the Orcs: Force - Killadakka Warrior Cluster set from GamesWorkshop. Precisely fitting compartments made of soft foam reliably protect your miniatures from damage and ensure that your painted units arrive safely at the gaming table without scratches. To allow your army to grow, you can store up to 12 additional figures in the bag. The full-size foam insert FSMEVM100BO has a large compartment that has been cut to fit the miniatures exactly. Here, the Bomba model lies securely and completely surrounded by foam. This means that sensitive parts such as guns, bombs and rockets are reliably protected from damage during transport. The colours of the painted miniature remain just as intact. The flight base is stored separately from the Bommer in the compartment provided next to it. An additional compartment is available for you to use as you wish, e.g. for weapon options or other miniatures. The matching foam lid completes the set. Use it as a cover so that nothing can fall out during transport. The FSLB310 storage box is made of coated, double-walled cardboard and is therefore very light yet sturdy. The attachable lid reliably protects the contents from dust and other external influences. The two plastic-reinforced carrying handles on the sides make the box easy to transport. This ensures that all miniatures are safely and neatly stowed away and ready for transport to the next battle.
