Product Description

Transport all the contents of the "Massive Darkness 2: Hellscape" base game and the "Heavenfall: Campaign Mode" expansion safely with these Feldherr storage boxes including foam. The last generation of Lightbringers was able to banish the darkness from our reality. Not completely destroyed, it was able to find new strength in lightless space and now it threatens the world once again. Will the current generation complete the work of the old Lightbringers or will they be consumed by the shadows? You will have to find the answer to this question on countless game nights. We can't take the yoke of adventure off your shoulders, but we can make sure that all your miniatures and game material arrive at the gaming table complete and undamaged with this practical storage box set. And you know where your game material is at all times. - The storage box set offers space for all 78 miniatures and all the game material from the "Massive Darkness 2: Hellscape" base game and the "Heavenfall: Campaign Mode" expansion. - 4 card holders and 2 token holders offer you additional options for sorting your game material. - Large-format game components such as rulebooks, Spell Amulet, cardboard dashboards and Treasure Bag can be stored on the foam lids of the various storage boxes. All miniatures, together with the complete game material, are perfectly protected and clearly organised on 9 foam inserts. From the Undead Minion to the Fallen Angel Leader, from Sir Rohnen to Nathias, from the Reaper to Archangel Michael - each miniature has its own customised compartment. Your figures stay in place during transport, don't slide around and, surrounded by soft foam, are optimally protected from damage. The weapons of your heroes remain just as intact as the wings of your angels. If you paint your figures, you can also be sure that the colours will be spared scratches and abrasion. Everything returns to the gaming table undamaged. Customised inlays with special compartments for cards, dice, tiles, bases and tokens help you to keep track of your game material at all times. Dashboards, cards and small game material are quickly organised. The enclosed plastic inserts not only provide additional space for your small-scale game material and your small-format cards, but you can also spread the inserts out on the gaming table as required and have the contents quickly to hand. The contents of the following boxes can be stored with this set: - "Massive Darkness 2: Hellscape" - Basic game - "Massive Darkness 2: Heavenfall" - Campaign Mode Expansion The storage boxes made of coated, double-walled cardboard are not only lightweight, but also robust and therefore ideal for storage and transport. The FSLB150 storage boxes can be easily carried using the plastic carrying handle, while the FSLB310 storage box can be carried using the two plastic-reinforced carrying handles on the sides.
