from **18,13 EUR**

Item no.: 380352
shipping weight: 0.10 kg
Manufacturer: Feldherr

Product Description

For safely storing and transporting a Mûmak model for the Middle-earth tabletop strategy game from GamesWorkshop. The inlay has a large compartment that is precisely cut to fit the miniature of Harad's War Mûmak. Thanks to the precise cut, the model stays in place during transport. The soft foam not only protects the platform on its back and other fragile parts, it also protects the colours of your painted miniature from abrasion and scratches. You can use the 6 square compartments to store warrior miniatures, for example. - The six compartments are each 35 mm long x 35 mm wide x 130 mm deep. To make it easier to get the small figures out of the deep compartments, you can fill and raise them with our foam squares. HS040A003 is suitable for this purpose. - The full-size foam insert has the following dimensions: 345 mm x 275 mm x 140 mm total height (130 mm usable height + 10 mm base) - High-quality, fine-pored foam - Chlorine-free and acid-free - Made in Germany
