### Product Description

Only the champions of the Slaves to Darkness can be so death-defying and self-confident as to tame a beast like the Manticore and go into battle with it. Few creatures are as determined and stubborn as the winged creature with the lion's body and the spiked, whip-like tail. To ensure that this beastly alliance arrives on the battlefield ready for battle, we provide you with the matching foam insert to protect your miniature. This Feldherr full-size insert offers optimum protection for this magnificent miniature, with a compartment tailored precisely to the model. This not only protects the many intricate details, but also protects the colours of the painted miniature from scratches and abrasion. The model fits into the compartment in both build variants - Chaos Lord on Manticore and Chaos Sorcerer Lord on Manticore. In addition to the Chaos Champion on his mount, there is space for up to 10 more miniatures. The rectangular compartments can be filled with figures of your choice. The rectangular compartments are ideal for additional Slaves to Darkness miniatures. The three large compartments are ideal for mounted units, such as the Varanguard, Chaos Knights or a Chaos Lord on Karkadrak. The other seven compartments have space for characters and infantry, such as the Chaos Warriors.
