## FSMFDX110BO - Foam inlay for Star Wars X-Wing: Trident-class attack ship

from **15,24 EUR**

Item no.: 380447  
shipping weight: 0.10 kg  
Manufacturer: Feldherr

### Product Description

Store a Trident-class attack ship together with the corresponding game material neatly and transport it well protected. The Trident-class gunship cuts a fine figure in many different missions, and that's not just because of its unusual shape. During the Clone Wars, the ship served the Confederacy of Independent Systems as an attack ship and transporter, as the spearhead of a fleet or as a single pirate ship that surprised entire planets. With this Feldherr foam inlay, the Kraken ship arrives at the gaming table with all its tentacles and is always ready for epic battles in space, in the air and in the water. The large compartment is tailored precisely to a model of the Trident-class attack ship. The ship lies securely in its soft foam compartment. The precise cut ensures that the miniature does not slide around during transport. This not only protects delicate parts from damage, but also the colours from abrasion and scratches. The base and the manoeuvring aid are stored in the large elongated compartment next to it. The holding sticks also have their own compartment. You can store your markers, together with the manoeuvre wheels and the resource display, in the square compartment under the ship. The card compartment with a finger-wide cut-out to make it easier to remove the card deck naturally also houses the playing cards with protective sleeves. You still have six rectangular compartments for additional fighters. These fit in here with a base. They are suitable for stowing Hyena-class droid bombers, Nantex-class starfighters or Vulture-class droid fighters, for example. - Each of the 6 compartments is 50 mm long x 45 mm wide x 100 mm deep. The full-size foam insert measures: 345 mm x 275 mm x 110 mm total height (100 mm usable height + 10 mm foam base). - High-quality, fine-pored foam - Chlorine-free and acid-free - Made in Germany
