This allows you to store all your miniatures and tokens, as well as all your game material, well protected and clearly organised. Whether a simple warrior, exalted god or guardian, there is a separate, precisely tailored compartment for each model. This way, you can store every figure safely. Thanks to the customised cut, your figures will always stay firmly in place. This prevents them from sliding around and bumping into each other during transport through the desert. Surrounded by soft foam, they are reliably protected from damage. It also prevents scratching or unwanted colour abrasion of your elaborately painted miniatures. Individual compartments in the inlays provide sufficient space for all cards, markers and other game material. They help you to keep your game material compactly organised and safe at all times. The card compartments have finger-thick recesses that make it easier for you to remove the stacks. All cards fit into the insert even with a protective cover. The foam lids supplied ensure that everything is safely packed away. The large-format Pharaoh Cards, Player Aid Cards, rulebooks, Devotion Dashboard, Scenario Book and the Kickstarter-exclusive Palace Dashboard are stored separately on the foam lid in the storage box. The game board is stored in the GENERAL 370 bag next to the FSLB310 storage box. The FSLB310 storage box is made of coated, double-wall cardboard and is therefore very light yet sturdy. The attachable lid reliably protects the contents from dust and other external influences. The two plastic-reinforced carrying handles on the sides make the box easy to transport. The black Feldherr bag, the GENERAL 370, is made of hard-wearing, water-repellent material. Continuous padding together with a reinforced base and lid ensure that the contents are protected from external influences, even when being transported by car or train. In addition to the large main compartment, there are a total of four small compartments with waterproof zips on the outside. You can open the bag completely on one side to make it easier to put things in and out. The GENERAL 370 can be carried comfortably on the shoulder with the wear-resistant, detachable shoulder strap or with the carrying handle, which is also detachable. If you don't need the bag at the moment, you can fold it up to save space and store it in the cupboard. This keeps all your miniatures safe and tidy and ready for transport to the next battle.
