from **171,31 EUR**

Item no.: 381602
shipping weight: 1.00 kg
Manufacturer: Feldherr

Product Description

Tablets with or without slim sleeves can be stored in the Feldherr inlay made of sturdy and shock-absorbing PE hard foam. Each compartment offers space for a device (including sleeve) with the maximum dimensions: 250 mm height x 185 mm width x 17 mm thickness. 5th and 6th generation iPads, for example, fit perfectly with the Otterbox Symmetry Folio Case. There are also two additional compartments for accessories such as cables, chargers and Wi-Fi access points. If required, an additional tablet (including protective cover) can be stored in the larger compartment. The Euro case made of robust plastic reliably protects your tablets from dust and dirt. Thanks to the hinged lid, you can access your devices quickly. Thanks to its compact design, the Euro container is easy to store and can be stacked on top of each other to save space if required. Even when fully loaded, the Euro container is easy to carry thanks to its low weight. The black Feldherr bag, the GENERAL 370, is made of hard-wearing, water-repellent material. Continuous padding together with a reinforced base and lid ensure that the contents are protected from external influences even when being transported by car or train. In addition to the large main compartment, there are a total of four small compartments with waterproof zips on the outside. You can open the bag completely on one side to make it easier to put things in and out. The GENERAL 370 can be carried comfortably on the shoulder with the wear-resistant, detachable shoulder strap or with the carrying handle, which is also detachable. If you don't need the bag at the moment, you can fold it up to save space and store it in the cupboard.
