from **103,71 EUR**

Item no.: 377081
 shipping weight: 1.50 kg
 Manufacturer: Feldherr

Product Description

This Feldherr set is supplied without foam. It is ideal for storing and transporting larger miniature and game collections. The FSLB310 offers space for all Feldherr foam inserts in half-size and full-size sizes up to a total height of 310 mm. It is made of coated, double-wall cardboard and is therefore very light and also very stable. The attachable lid reliably protects the contents from dust and other external influences. With the matching foam insert, miniatures, game material and all other goods can be stored safely - and transported easily with the two plastic-reinforced carrying handles on the sides. The box is delivered fully folded and is ready for immediate use. The GENERAL 370 is the all-rounder in our range. With this bag, you can comfortably transport everything from board game boxes to our storage boxes and full-size foam inserts. The black Feldherr GENERAL 370 bag is made of hard-wearing, water-repellent material. Continuous padding together with a reinforced base and lid ensure that the contents are reliably protected from external influences, even when travelling by car or train. There is also plenty of storage space. In addition to the large main compartment, there are a total of four small compartments with waterproof zips on the outside. Here you can store game instructions and booklets, books and writing materials, for example. The bag can be opened completely on one side to make it easier to put things in and out. The GENERAL 370 can be carried comfortably on the shoulder using the wear-resistant, detachable shoulder strap or transported using the carrying handle, which is also detachable. If the bag is not needed, you can fold it up to save space and store it in the cupboard.
