Product Description

Spacious Feldherr carrier bag for storing and transporting miniatures and game material from the base game and all expansions. Thanks to all-encompassing magic, everyday sporting events are now pointless. To avoid dying of boredom, the inhabitants of Fabulosa created a competition of senseless violence: the "Super Fantasy Brawl". You are a fan of raw violence paired with sporting spectacle. To prevent your miniatures from falling victim to wanton destruction, we have the right bundle for you. The Feldherr GENERAL370 bag incl. storage box and foam inserts ensures that you don't have to worry about any details or limbs breaking off and offers space for all contents from the basic game, the terrain pack and all expansions. - The set offers space for all miniatures, cards and the entire game material of the basic game, the terrain pack, the "Upgrade plastic token kit" and all expansions. - The set comes with a separate insert for small game material and the playing cards. - All cards also fit with a protective cover. - Dashboards, instructions and game board are stored separately in the bag. The set offers space for all miniatures and the entire game material from: - Super Fantasy Brawl - Basic game- Super Fantasy Brawl - The Art of War Expansion- Super Fantasy Brawl - Circle of War Expansion- Super Fantasy Brawl - Force of Nature Expansion- Super Fantasy Brawl - Radiant Authority Expansion- Super Fantasy Brawl - Mental Might Expansion- Super Fantasy Brawl - Hot Trick Expansion- Super Fantasy Brawl - Statues terrain pack- Super Fantasy Brawl - Upgrade plastic token kit To be prepared for the amount of content, we have packed 3 full-size and 2 half-size foam inserts in a sturdy Feldherr storage box. This means that all miniatures and the entire game material are well protected and clearly organised. The box is stowed in a GENERAL370 bag so that everything can be easily transported. There is a separate, customised compartment for each champion. Whether it's Sulka or the statue of Esmae, your models stay in place during transport. They won't slide around and, surrounded by soft foam, are optimally protected from damage. Fragile limbs remain just as undamaged as the weapons of your champions. If you paint your figures, you can also be sure that the colours are protected from scratches and abrasion. An individual insert with compartments for cards, base rings and tokens helps you to keep track of your game material at all times. Special card compartments with finger-thick cut-outs are provided for the cards. These make it easier for you to remove the individual stacks. This means you always have your game material quickly to hand. The time and nerves you save on setting up the game can be spent on spectacular arena battles instead. Even the additional upgrade plastic token kit does not pose a major challenge for this set, as the full-size foam insert with 8 compartments still has 2 compartments for your small game material. Finally, cover the inserts with the foam lid provided. This means that everything is surrounded by soft foam and nothing can slip out of the compartments. Dashboards, instructions and game board are stored separately in the bag. This means that all the pieces are safely packed and ready for transport. The set consists of: - 1 Feldherr GENERAL 370 bag- 1 Feldherr storage box FSLB250- 1 half-size foam insert with 6 compartments for miniatures from the base game (HSMECO085BO)- 1 half-size foam insert with 3 compartments for statues Ragryl, Esmae and Garnet from the Terrain Pack (HSDF085BO)- 1 full-size foam insert with 12 compartments for miniatures from the expansions (FSMEPQ060BO)- 1 full-size foam insert with 8 compartments for miniatures from the expansions + small game components (FSMEFC055BO)- 1 full-size foam insert with 13 compartments for cards + small game material (FSLG050BO)- 1 foam lid The storage box FSLB250 is made of coated double-walled cardboard, double-wall cardboard and is therefore both very light and particularly stable. Continuous padding together with a reinforced base and lid ensure that the contents are protected from external influences even when being transported by car or train.
