### Product Description

To ensure that nothing happens to your army on the way to the next mission, you get the matching Feldherr GENERAL 370 bag including Feldherr storage box FSLB310 and matching foam inserts to protect your miniatures. Each miniature in your collection has its own custom-fit compartment. This keeps your models safely in place during transport. The soft foam not only protects the delicate parts of your figures. The colours of painted miniatures are just as safe from abrasion and scratches here. The foam lid supplied closes the whole thing and ensures that your figures are packed securely all round. The FSLB310 storage box is made of coated, double-wall cardboard and is therefore very light yet stable. The attachable lid reliably protects the contents from dust and other external influences. The two plastic-reinforced carrying handles on the sides make the box easy to transport. The black Feldherr bag, the GENERAL 370, is made of hard-wearing, water-repellent material. Continuous padding together with a reinforced base and lid ensure that the contents are protected from external influences, even when being transported by car or train. In addition to the large main compartment, there are a total of four small compartments with waterproof zips on the outside. You can open the bag completely on one side to make it easier to put things in and out. The GENERAL 370 can be carried comfortably on the shoulder using the hard-wearing, detachable shoulder strap or with the carrying handle, which is also detachable. If you don't need the bag at the moment, you can fold it up to save space and store it in the cupboard. This ensures that all miniatures are safely and neatly stowed away and ready for transport to the next battle.
