GAIA - Board game organiser for Project

from **25,96 EUR**

Item no.: 376344
shipping weight: 0.20 kg
Manufacturer: Feldherr

Product Description

When nations spread across the galaxy, terraform, colonise and cultivate planets, research new technologies and trade with each other, we not only need entire star systems, but also lots of player buildings, technology tokens, scoring markers, space stations, power tokens and cards. Our insert has customised compartments for all of these components and keeps the colony tidy. GAIA consists of 13 trays that can be removed individually and placed anywhere on the game table. Trays 1-7: Identical boxes for all seven player colours. Each building type has its own compartment. A removable side panel makes access easy. Tray 8: A common dispenser for cardboard markers such as the technology and scoring tokens, turn boosters and alliance markers. Tray 9: Storage for power tokens, action markers and Gaia planets. Tray 10: A holder for the cards. Trays 11-12: A small compartment each for space stations and alliance display tokens. Tray 13: A narrow tray for 2 extra markers. To pack, first place the race boards in the box, followed by the space pieces and covered by the research board. The trays are grouped around this and the seven player trays cover everything at the end. The scoring board and rulebooks are placed on top at the end. Card sleeves are supported, the lid closes flush and the box can be stored on end without anything getting mixed up. This item is supplied as a kit that needs to be assembled. We recommend using wood glue for this (not included in the package). Attention! Hobby product. From 14 years. Not a children's toy.
