from 149,04 EUR

Item no.: 377088  
shipping weight: 1.00 kg  
Manufacturer: Feldherr

### Product Description

Life is fleeting, but glory lasts forever. It's time to fight for it and face the end of the world. So that you can stand before the gods with pride and your mountains of miniatures are not mistakenly counted as blood sacrifices, we have this foam-filled GENERAL 370 bag including two storage boxes for you. This allows you to safely and compactly store all miniatures and game material from both Kickstarter campaigns, all expansions, optional buys and all stretch goals. The set offers space for all miniatures from both "Blood Rage" Kickstarter campaigns, including all optional buys and all stretch goals. All cards also fit with protective sleeves. You can store the game board and all game sheets in the LBBG075. The following contents can be stored with this set: We have packed a total of 6 foam inserts and 2 storage boxes in the bag so that you can store all miniatures and tokens, as well as all game material, in a well-organised and well-protected way. There is a separate, precisely tailored compartment for each model. This means you can safely store every clan, every god and every monster, no matter how big. Your figures will always stay firmly in place, won't slide around during transport and are surrounded by soft foam that reliably protects them from damage. It also prevents your elaborately painted miniatures from scratching or unwanted colour abrasion. Individual compartments in the inlays provide sufficient space for all cards, markers and other game material. They help you to keep your game material compactly organised and safe at all times. The compartments for the playing cards are designed so that the cards fit into the inlay even with protective sleeves. The foam lids supplied ensure that everything is packed away safely. You can store the game board and all game sheets in the LBBG075. The black Feldherr bag, the GENERAL 370, is made of hard-wearing, water-repellent material. Full-length padding and a reinforced base and lid ensure that the contents are protected from external influences, even when travelling by car or train. In addition to the large main compartment, there are a total of four small compartments with waterproof zips on the outside. The bag can be opened completely on one side for easier storage and removal. The GENERAL 370 can be carried comfortably on the shoulder using the wear-resistant, detachable shoulder strap or transported using the carrying handle, which is also detachable. If the bag is not needed, you can fold it up to save space and store it in the cupboard. The LBBG075 and LBBG250 storage boxes are made of coated, double-wall cardboard. This makes them not only pleasantly light, but also particularly tear-resistant and stable. Miniatures and game material can be stored safely and protected from dust with the matching foam mats. The practical plastic carrying handle makes transport effortless.
