Product Description

The Feldherr carrier bag filled with storage box and 13 foam inserts for storing and transporting the regular Beastgrave warbands, the two Dreadfane warbands and for the Primal Lair terrain pieces. Orruks, Grots, Ghouls, Followers of Nurgle and Khaine's Devoted - another colourful but mostly beastly mix of warriors who meet in the caves of Beastgrave in the third season of Warhammer Underworlds. Then the Sequitors and a few Banshees cheated their way into the mix. Naturally, you went all-in and included the terrain in your Beastgrave collection. To make sure the ten warbands all arrive at the gaming table ready for battle, here's the sturdy and convenient Feldherr GENERAL 370 bag with storage boxes and foam for you and your miniatures. The compartments are individually tailored to the miniatures. This means that the models are well protected in the soft foam. Sensitive details are thus protected from damage. The customised cut ensures that the figures do not slide around during transport. Painted warrior models are spared scratches and chipped paint. An additional compartment is reserved under each figure for the playing cards. It has a finger-wide recess to make it easier to get the cards out. Up to 40 cards fit in here, including sleeves, of course. Deck boxes also fit here. Dice and markers can be sorted into the remaining four compartments. The three Stormcast Eternals Sequitors and the four Nighthaunt Myrmourn Banshees from the Dreadfane box can also prepare for their battles in their own inserts. Foam insert number 11 takes care of the terrain tiles from the "Primal Lair" set. The six compartments are customised for:- Empire stone shards- Acid pit- Gas clouds- Tentacle set- Skull on rocks- Animal skull with skeleton part Two additional foam inserts offer you space for more miniatures or accessories. Finally, the supplied foam lid ensures that your figures are safely packed all round and survive the transport to the realm of the beasts undamaged. To ensure that your game boards have a fixed place, there is also a storage box FSLB40 with 2 foam mats. The box is pushed to the side next to the foam inserts. It is not only used to store your game boards. It also ensures a tighter, more secure fit of the foam inserts and therefore more stability for transport. The black Feldherr bag, the GENERAL 370, is made of hard-wearing, water-repellent material. Continuous padding together with a reinforced base and lid ensure that the contents are protected from external influences, even when travelling by car or train. In addition to the large main compartment, there are a total of four small compartments with waterproof zips on the outside. The bag can be opened completely on one side to make packing and unpacking easier. The GENERAL 370 can be carried comfortably on the shoulder using the wear-resistant, detachable shoulder strap or transported using the carrying handle, which is also detachable. If the bag is not needed, you can fold it up to save space and store it in the cupboard.
