from **152,10 EUR**

Item no.: 377344
 shipping weight: 1.00 kg
 Manufacturer: Feldherr

Product Description

To ensure that nothing happens to your army on the way to the next mission, you get the matching Feldherr GENERAL370 bag including storage box and foam inserts to protect your miniatures. Each miniature in your collection gets its own custom-fit compartment. This keeps your models safely in place during transport. The soft foam protects the delicate parts of your figures and the colours of painted miniatures are just as safe from abrasion and scratches. This half-size foam mat HSMEGC090BO has a large compartment that has been tailored precisely to the dimensions of the Primaris Space Marines Repulsor. As a result, its huge arsenal of weapons remains undamaged on the armour. The heavy Gatling gun on the turret and the heavy twin bolter at the front remain intact during transport, as do the radar systems. The turret gets the small compartment next to it. The set also includes a matching foam cover. This means that nothing can fall out or hit the lid of the box during transport. The GENERAL 370 can be easily transported either with the abrasion-resistant, detachable shoulder strap or by hand with the shorter carrying strap. As soon as the bag is not needed, you can fold it up to save space and store it in the cupboard. The FSLB310 storage box is made of coated, double-walled cardboard and is therefore very light and stable. The attachable lid reliably protects the contents from dust and other external influences. The two plastic-reinforced carrying handles on the sides make transport easier. This means that all miniatures are safely and neatly stowed away and ready for transport to the next battle.

Details- high quality, fine-pored foam - Made in Germany- chlorine-free and acid-free
