from **37,43 EUR**

Item no.: 379896  
shipping weight: 0.10 kg  
Manufacturer: Feldherr

### Product Description

Foam set For stowing all the contents of the Mythic Tiers Pledge in the original base game box. Includes Flex Cross Band for more stability. Designed for the 2021 box version (dimensions 40.6 x 30.5 x 13.3 cm). This set was designed for the 2021 box version, with dimensions 40.6 x 30.5 x 13.3 cm. The new edition of HeroQuest was accompanied by an exciting crowdfunding campaign. In addition to the base game and the expansions "Kellar's Keep" and "Return of the Witch Lord", the Mythic Tier also contains the Mythic Box. This was filled with even more exclusive content. For the multitude of detailed miniatures and your exclusive treasures, you can get the matching Feldherr foam set for your basic game box here. Customised Feldherr foam inserts ensure that your heroes don't have to beat up broken opponents with broken weapons. This allows you to organise all the contents of the "Mythic Tier" from the crowdfunding campaign for HeroQuest (2021) from Hasbro and transport them in the best possible way. The set offers space for all miniatures and the entire game material of the Mythic Tier from the crowdfunding campaign for HeroQuest (2021 format) from Hasbro. Four foam inserts ensure that all miniatures and terrain components are neatly organised and well protected. The models, doors and furniture from the basic game are distributed across two inserts. The miniatures from both expansions and the contents of the Mythic Box each have their own foam insert. Whether it's the dwarf from the basic game, the mummy from the expansion or the bard from the Mythic Box - each miniature has its own custom-fit compartment. This keeps your models safely in place during transport. The soft foam not only protects the delicate parts of your figures. The colours of painted miniatures are just as safe from abrasion and scratches. There are additional compartments in the inserts and a plastic token holder for organising your game material. Distribute your small accessories, such as tiles and dice, as you wish in the free compartments of the various inserts. A token holder for the tiles provides you with a better overview. This is located in the large compartment with the finger-thick recess in the medium-high insert. The character sheets are placed on top. There are a total of 3 card compartments for your playing cards. Of course, the cards also fit into the inserts with protective sleeves. Once everything is safely and neatly stowed away, place two of the supplied foam covers on the inserts. This means that the miniatures and accessories are completely surrounded by foam. Place all the larger game components such as the rulebook, screen, game board, quest books and oversized cardboard pieces on the lid of the top tray. Finally, place the last lid on top. This ensures that the larger components are also well packed. The lid of the board game box protrudes by approx. 7 cm. To ensure a stable, transportable fit of the lid despite the overhang, the set also includes a Feldherr Flex Cross Band blue (size XL). As with all 3D-printed models, there may be minor imperfections. The product images are only examples of what the finished product may look like. Colours may vary. All products are supplied unpainted.
