Product Description

Mirakulus Kingdom Rush - 3D tower for RidZ and SdE (DE extension)

The 3D tower miniatures make your kingdom shine in new splendor. They also make it easier to set up the game, because once assembled, you can always bring them back to the table quickly. In addition, they improve color visibility.

In Kingdom Rush, 1-4 brave adventurers ages 12 and up work together to withstand the relentless onslaught of the mysterious time mage! Command your heroes, build towers and recruit warriors to defend the kingdom against the ever-advancing horde. The towers, which give the tower defense genre its name, are in the center of attention: They allow you to place damage tokens - an innovative way of displaying damage! - and you have to watch out for the right time to upgrade it - this is the only way you can put a stop to the increasingly powerful waves of opponents ... The well-being of the kingdom is in your hands!

Warning!The basic game is required to play!

Warning!Not suitable for children under 36 months!
