

Item no.: 380621

HS020RES - Half-size grid foam 20 mm - electrostatically dissipative

from **1,77 EUR**

Item no.: 380621
shipping weight: 0.10 kg
Manufacturer: Feldherr

Product Description

This foam is perforated with a grid of 14 mm x 14 mm. A surrounding edge is not perforated and increases the stability of the customised foam insert. The grid enables the foam inserts to be customised to your requirements without tools. The item is supplied without a base blank. For example, we offer the items HS010BESD or HS020BESD as bases. Details- Dimensions: 275 mm x 172.5 mm x 20 mm high; rounded corners- Grid perforation 14 mm x 14 mm x 20 mm- Electrostatic dissipative / ESD foam- Typical surface resistance $R_s = 10^{10}$ to $10^{11} \Omega$ - High-quality, fine-pored polyurethane (PU) foam- Made in Germany
