### Product Description

Foam set incl. plastic token and card holder for storing all contents of the expansion "Kellars Keep Bastion" for HeroQuest (2021). In times gone by, Kellars Keep Bastion was hewn from the cliffs above the Blackwater, and the fortress stretched deep beneath the mountain. Find the secret path under the mountain, gain access to the fortress and save the king. But you are not alone in the darkness. Just like the base game, the "Kellars Keep Bastion" expansion has been extensively retreaded. So that you don't get lost on your journey under the mountain and always have all the pieces of the adventure together, here is this practical foam set with matching organiser for safe storage of the stylish miniatures and game material. - The set fits exactly into the original board game box of the "HeroQuest (2021)" expansion "Kellar's Bastion Keep". - A token holder made of robust plastic offers space for small game material. A card holder takes care of the 14 playing cards, while the 16 figures and 2 goals find optimal protection in the foam insert. - All cards also fit with protective sleeves. - The book of challenges, as well as the token and card holder, are stored on the foam lid. - The lid of the box protrudes approx. 1 cm. - Transport and tilt-proof - vertical storage possible. - Ready to use - No assembly required. Ready to Use - No assembly required. The set contains: - 1 Feldherr foam insert for 16 miniatures and 2 gates of the expansion. - 1 plastic card holder with 2 compartments for the playing cards - 1 plastic token holder with a compartment for small game material - 1 foam lid A total of 19 compartments, like dark chambers, provide the necessary protection for the Morcar servants. Customised compartments offer 6 goblins, 8 orcs and 3 abominations a dark hiding place in which the light-shy creatures can be optimally stored. You can use the remaining two compartments for the wooden and stone gate. Embedded in soft foam, your miniatures are optimally protected from damage. The customised cut prevents them from sliding around during transport. Your painted figures are thus protected from ugly scratches and annoying colour abrasion. The included foam lid ensures that your miniatures are securely packed all round and do not bump into the lid of the box during transport. The set includes a token holder and a card holder made of robust plastic for your game material and cards. This means that your game material can also be stored neatly. You can store the book of challenges, the token holder and the card holder on the foam lid. So everything is neatly and safely stowed away. And nothing stands in the way of your next adventure. The foam insert has the following dimensions: 230 mm x 170 mm x 50 mm total height (40 mm usable height + 10 mm base). - High-quality, fine-pored foam - Chlorine-free and acid-free - Made in Germany As with all 3D-printed models, minor imperfections may occur. The product images are only examples of what the finished product may look like. Colours may vary. All products are supplied unpainted. - thermoplastic - no assembly required - ready to play - 3D printed in Germany
